	<u>Talisman Skid 0784.</u>			

Transporter (Into Yard): <u>Cupston Hauling</u>	Name (Print): <u>x Andy Hafe</u>
Date: <u>June 30, 2014.</u>	Name (Sign): <u>x [Signature]</u>

To be completed by GPS Staff

Date Shipped Out:
MR Number:

- An Equipment Return must be prepared for every request to return or store equipment/material at the Grande Prairie Storage Yard. Excluding pipe. Please refer to Pe Ben GP Pipe Return Policy or contact encana.pipe@encana.com
- Check the reason it is being returned to the yard. If it is in new condition and being returned to inventory, new/used equipment to be used at a different location or other with a business case in the comments section
- Include quantity, description, serial number, heat number (as applicable), drawings, manufacturer. Indicate any controllable product that may be contained and the MSDS that is required. *You will be contacted when the return is reviewed with an authorization.

*You will be contacted when the return is reviewed with an authorization.

ATTENTION ENCANA CONSTRUCTION INSPECTORS

Unit #

Please verify equipment data from attached report once on-site and collect and record any additional equipment data. Return paperwork to Construction Admin or Operations Field Technician when complete. Any questions should be directed to equipment@encana.com or field representative.

**** PLEASE NOTE: this report does not replace Pressure Equipment Documentation ****
Example: New, replaced, relocated Vessel Checklist

Check here to verify stainless steel asset tags are present on equipment and asset numbers match the attached report
