Service Report			
Parts			Work Performed
Description	Qty	Part #	
Batteries	2	210622	Opened up unit, inspected, plugged holes and reattached anything needed to run, ignition controller batteries were dead so new batteries were bought, coupling was detached, gas and start air hooked up, engine test ran till up to temperature then compression tested (1:220, 2:210, 3:210, 4:210, 5:220, 6:220), compressor was hooked up and ran to confirm it worked, I then shutdown and preserved unit, put bag over intake to turbo and ziptied.
