

CLASSIFICATION (Circle One)

Unrestricted

(Estimated incremental annual effective dose to the public must be less than 0.3mSv/h and to the worker less than 1.0mSv/h)

NORMS Management

(Estimated incremental annual effect dose is greater than the investigation threshold of 0.3mSv/h)

ADDITIONAL NOTES

The results reflect only the NORMS around the manway as no entry was completed of the confined space. The survey was arms length inside testing as much surface area as possible without a CSE.

Results; 0 Cpm

The only NORMS picked up was from background (50cpm)
