

Explanation	Input Values	Unit of Measure/Format
SAP Equipment # (if known)	zna	
Equipment Type	1004_Building	
Equipment Description	RTU Building	
Maintenance Plant	CAB_Elmworth/Goodfare	choose from drop down
Area Level 3	unknown	choose from drop down
Plant/Battery/Well	unknown	choose from drop down
Bottom Hole Location		
Surface Location	11-07-070-12W6	
Process	unknown	choose from drop down
Cost Centre	GP ARS	
SAP Superior Equipment # (if known)		
Equipment Status	SURP-Surplus	choose from drop down
Manufacturer	Ronaco Metal Buildings	
Model	/	
Manuf Part No	/	
Serial Number	/	
Skid ID#	/	
Tech ID/P&ID	/	
Controllable Asset Indicator	Controllable Asset	choose from drop down
CRN NUMBER	/	
HVAC (Y/N)	NO	choose from drop down
Length	6'	indicate measurement
OWNER	Conoco	
PURPOSE	Shelter	
Service Med, liq/gas/steam/air	GAS	choose from drop down
SPRINKLER SYSTEM	NO	choose from drop down
STRUCTURE TYPE	Steel	
WIDTH	6'	indicate measurement

Has the unit been isolated from the process?	YES	choose from drop down
Method of Isolation: Double Block and Bleed?		choose from drop down
Method of Isolation: Blinded?		choose from drop down
Has the unit been disconnected from the process?		
le: Spool Piece Removed	YES	choose from drop down
How was the unit preserved? Compression as per MOC 24014 Technical Bulletin 2009-05 Compressor Preservation		choose from drop down
How was the unit preserved? Has A&OI Specialist provided preservation support for vessels and other equipment		choose from drop down
How was the unit preserved? Additional comments/Free Text
