Visual and magnetic particle examinations were performed on the above-described forklift. The specific components examined and our findings were as follows:

1. Steering Knuckles – no defects noted.
2. Carrier Frame – no defects noted.
3. Counterweight – no defects noted.
4. Boom Butt Section – no defects noted.
5. Boom Intermediate Section – no defects noted.
6. Boom Tip Section – no defects noted.
7. Fork Carrier – no defects noted.
8. Forks – no defects noted.
9. Enclosed Cab – no defects noted.

Based on the structural examination, the above-described components are recommended for service.

Yours very truly,
